

Simply a Powerful Investment in Your Business

The *AccessEnforcer*® from Calyptix is a premium device for network security that delivers *The Managed Edge*™, the best all-in-one service to protect your network so you can get back to business. Below you'll see our features and why business owners, IT resellers, and MSPs love working with Calyptix.

Strong Security

"The firewall is one of the best we've used at Keizer Fire... We deal with emergencies every day, but we don't have to worry about emergencies on our network because we're guarded with Calyptix."

Rod Conway, Deputy Fire Marshal and Captain, Keizer Fire District of Oregon

Easy to Deploy

"We love the convenience of multiple appliances in one easy to administer box."

Michele Long, Chief Information Officer, Carolina Mills Inc.

Superior Support

"The Calyptix firewall is a great piece of machinery, but what really keeps us coming back is their level of support and availability. There have been times when we really needed help in an emergency and they never let us down. I know one of their reps on a first-name basis, and any time I need help, he's on it. They're a class-act all the way."

Gino Lattarulo, Service Manager, Thompson Buick GMC Cadillac

Automated and Flexible Features:
